

# Team Building

The effective use of teams to achieve an organization's strategic objectives and increase productivity can make the difference in a highly competitive marketplace. Teams improve workforce morale and provide important opportunities for leadership; they also make efficient use of the organization's talents. Putting together a good team and then consistently helping it become more effective should be among the top priorities of every leader. It can be done by using the four-step process outlined in this One Page Coach® storyboard: PLAN, TEST, CHECK, and EXECUTE. The illustration to the right and the information in the storyboard explain how to build an effective team.

1. PLAN	<p>► <b>Identify the team's mission.</b></p> <ol style="list-style-type: none"> <li>Identify the overall mission or purpose of the team. ("Why do we exist as a team?")</li> <li>Express the mission in the most workable and understandable way possible.</li> <li>Widely communicate the team's mission to other teams in the organization with whom there is contact.</li> </ol> 	<p>► <b>Identify the team's vision.</b></p> <ol style="list-style-type: none"> <li>As a group, determine the team's vision. ("Where do we want to be?")</li> <li>Use the vision to set specific goals and objectives to improve processes.</li> <li>Set stretching but achievable targets for each objective.</li> <li>Agree on milestone points for each objective and how the review process will work.</li> </ol> 	<p>► <b>Define the team's role.</b></p> <ol style="list-style-type: none"> <li>Identify the team's skills and abilities, and then match them to the tasks to be done.</li> <li>Work out who will be doing what in the team in achieving objectives.</li> <li>Agree on who will need to work with who and how (do this as a group).</li> </ol> 	<p>► <b>Determine team values and protocols.</b></p> <ol style="list-style-type: none"> <li>Discuss the individual values of team members.</li> <li>List which ones they believe the team needs to adopt if it is to achieve its objectives.</li> <li>Develop a "charter" of agreed-on team behaviors.</li> <li>Determine how the agreed-on team behavior will be monitored and reviewed.</li> </ol> 
2. TEST	<p>► <b>Choose a pilot project.</b></p> <ol style="list-style-type: none"> <li>Select one team goal or objective to be achieved in a reasonable time frame (i.e., three months).</li> <li>Set targets and milestones.</li> <li>Determine the role of each member in achieving the goal.</li> <li>Agree on the measurement criteria.</li> </ol> 			<p>► <b>Implement the pilot process.</b></p> <ol style="list-style-type: none"> <li>Hold regular meetings on progress toward the goal.</li> <li>Reallocate people and resources along the way, as needed.</li> <li>Openly discuss what is working and what is not working as planned.</li> <li>Document team progress.</li> </ol> 
3. CHECK	<p>► <b>Gather data on the pilot project.</b></p> <ol style="list-style-type: none"> <li>When the pilot project is completed, gather together all the data.</li> <li>Give every team member a copy to review.</li> <li>Hold a formal team meeting specifically to review group performance on the pilot project.</li> <li>Share opinions about the project and the team's performance.</li> </ol> 			<p>► <b>Develop standards.</b></p> <ol style="list-style-type: none"> <li>Identify key priority areas on which the team should work in the future.</li> <li>Re-define team roles, based on the pilot project learning.</li> <li>Agree on any changes to the list of team behaviors and protocols for the future.</li> <li>Develop simple one-page outlines of standards of expected performance and outcomes for the future.</li> </ol> 
4. EXECUTE	<p>► <b>Apply the learning to all projects.</b></p> <ol style="list-style-type: none"> <li>Set targets and milestones for all team projects.</li> <li>Determine the roles of team members and who will work with whom.</li> <li>Develop appropriate ways to measure project performance.</li> </ol> 	<p>► <b>Communicate.</b></p> <ol style="list-style-type: none"> <li>Hold regular open meetings and discuss progress.</li> <li>Check that the team charter is being followed and standards are being met.</li> <li>Communicate successes and difficulties quickly and at all levels.</li> </ol> 	<p>► <b>Perform a post-audit and review.</b></p> <ol style="list-style-type: none"> <li>Address performance problems and plan how to improve performance.</li> <li>Celebrate successes, and reward the team accordingly.</li> <li>Revert to the planning phase, and set higher goals this time.</li> </ol> 	<p>► <b>Continually seek a totally-aligned effort.</b></p>

## High Performing Teams Checklist

1	What is our vision as a team? (WHERE do you want to go?)	
2	What is the team's mission? (WHY do we exist? What is our purpose?)	
3	What are our key agreed-on values? (In what do we most believe to be successful?)	
4	What are the major roles that this team needs to perform to be successful?	
5	What team behaviours do we want to promote, and what do we want to prevent in the future?	
6	How will we measure or appraise the team's performance and give recognition for success when it is achieved?	
7	How will we capture the learning from our successes and mistakes?	
8	What goals, targets, results, or outcomes are most important for the team to achieve?
